

Tear-Tab Poster to Promote NiggerMania.com

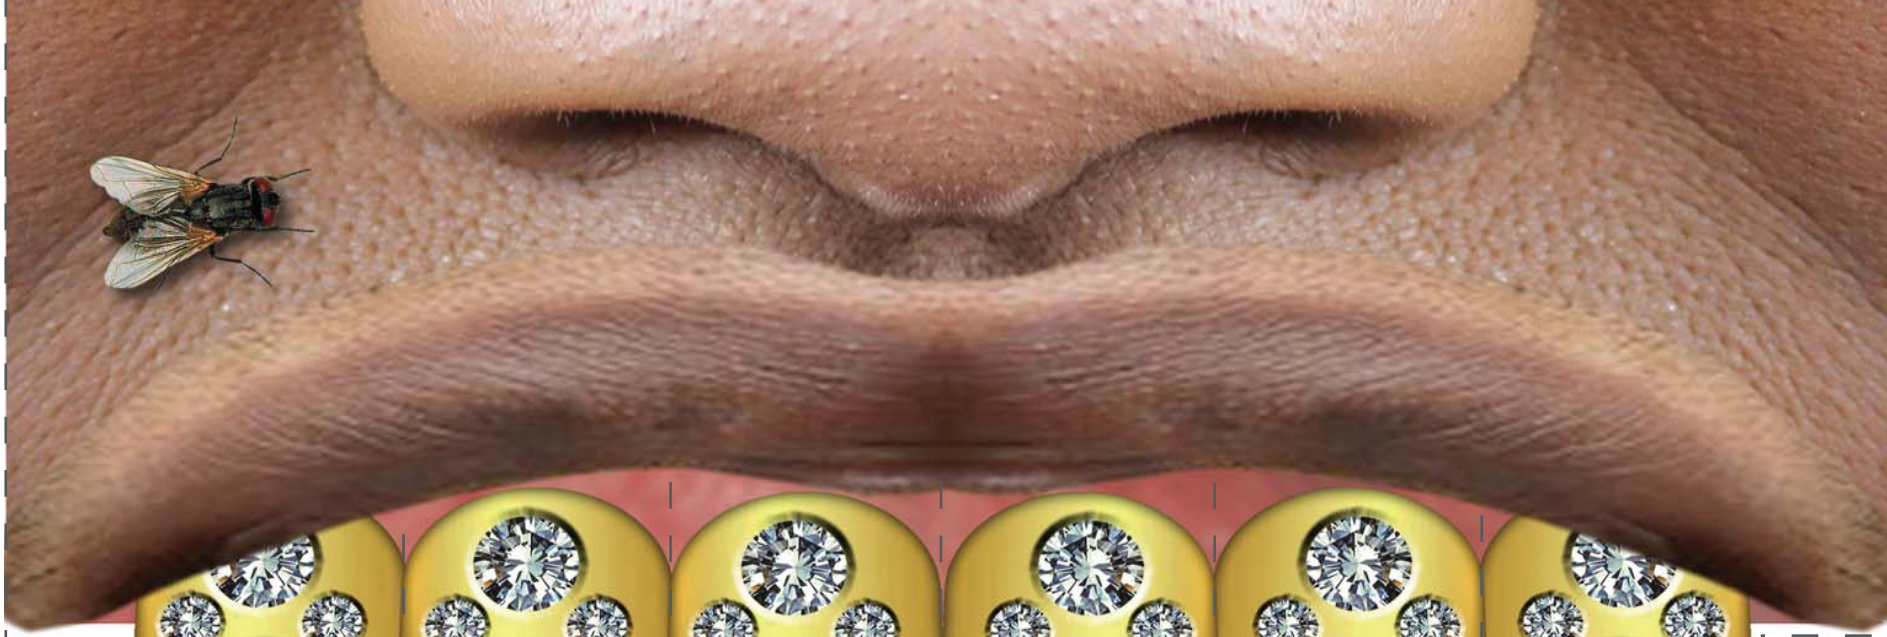

Print out this sheet, trim on the dotted lines, and place on telephone poles, walls or wherever it is legal to post in your neighborhood.

IMPORTANT:

Many cities have enacted municipal codes that govern whether or not you can post advertisements, such as on walls or on telephone poles, etc. Depending on which city you reside in, it may be legal to post signs on public property.

So, **you must check your city's local ordinances, and obey them.** Posting flyers may or may not be legal in your city. It is better to err on the side of caution.
